TILZ SPA BY TILDA

Brand Strategy Document

Prepared for	Oge Matilda (Tilda)
Business	Tilz Spa by Tilda
Location	Wuse 2, Abuja
Date	7 April 2026
Prepared by	HAMZURY Institution
Classification	Confidential

Building Abuja's next luxury wellness icon.

Executive Summary

This document establishes the strategic brand foundation for Tilz Spa by Tilda — a minimal-luxury wellness destination in Wuse 2, Abuja. It defines the brand's identity, positioning, voice, and visual direction to ensure every touchpoint communicates the same message: refined elegance, quiet luxury, and exceptional care.

The strategy outlined here will guide all subsequent work — from visual identity and website design to marketing content and client experience — ensuring consistency, premium positioning, and a brand that commands the prices it deserves.

1. Brand Essence

Vision

Vision Statement

To become Abuja's most trusted sanctuary for wellness — a space where discerning women come to restore, feel cared for, and leave transformed.

Mission

Mission Statement

Tilz Spa by Tilda delivers luxury bathing rituals, precision pedicures, and signature spa treatments in an environment of quiet sophistication — where every detail is intentional and every client feels seen.

Core Values

- **Discretion** — Discretion above everything. High-value clients trust spaces that protect their privacy.
- **Excellence** — Every product, every surface, every interaction meets a standard that justifies premium pricing.
- **Serenity** — We create calm. The outside world stays outside.
- **Refinement** — Beauty that is felt, not forced. Luxury that whispers, never shouts.
- **Consistency** — Systems that deliver the same exceptional experience every single visit.

2. Target Client Persona

Primary Audience

High-income women, aged 30–55, based in or around the Wuse, Maitama, and Gwarinpa corridors of Abuja. These are women who value quality over quantity, privacy over spectacle, and results over promises.

Client Segments

- **Corporate Executives** — Corporate professionals in banking, oil & gas, diplomatic corps, and tech — women who need an escape from high-pressure roles.
- **Expat & Diplomatic Community** — Wives and partners in Abuja's diplomatic and expatriate community who expect European-standard wellness in an African setting.
- **Bridal & Occasions** — Bridal parties, pre-wedding treatments, and luxury gift experiences for occasions.
- **Corporate Wellness** — Banks, embassies, and corporate organisations seeking structured wellness packages for their teams.

What She Values

- **Privacy** — A space that feels private and secure
- **Quality** — Results she can see and feel, not just promises
- **Convenience** — The ease of booking, arriving, and being cared for without friction
- **Standard** — An experience that matches or exceeds what she'd find in Lagos, Dubai, or London

The Decision Moment

She discovers Tilz Spa through Instagram or a trusted referral. She visits the profile, sees the aesthetic, checks the reviews, and within 30 seconds decides: "This looks like my kind of place." The brand must win in those 30 seconds.

3. Competitive Positioning

The Wuse 2 Landscape

Wuse 2 hosts a range of beauty and spa businesses. Most operate in the mid-range, competing on price and volume. They offer similar menus, similar aesthetics, and rely heavily on walk-in traffic and price promotions.

Where Tilz Spa Stands

Positioning Statement

Tilz Spa by Tilda is not the cheapest spa in Wuse 2. It is the one that discerning clients choose when they want certainty — certainty that the space will be clean, the treatment will be exceptional, the environment will be calm, and their privacy will be respected.

The positioning is minimal-luxury:

- **Minimal** — no clutter, no noise, no unnecessary. Every element in the space and in the communication is intentional.
- **Luxury** — not defined by gold fixtures, but by the quality of the experience, the precision of the service, and the feeling the client leaves with.

Competitive Advantages

- **Brand Perception** — Quiet confidence — the brand speaks softly but carries weight.
- **Operational Consistency** — Systems that ensure every visit is consistent, whether Tilda is present or not.
- **Privacy-First Positioning** — Abuja has many spas, but few that treat client privacy as a core

- value.
- **Client Relationship Model** — Beyond one-time treatments — a journey that includes membership, retention, and referral.

4. Unique Value Proposition

UVP

Tilz Spa by Tilda is Abuja’s sanctuary for women who demand excellence without excess — where bathing rituals, precision treatments, and absolute privacy come together in a space designed to restore.

This is not a tagline. It is the operating principle. Every service, every interaction, every piece of content should reinforce this position.

Supporting Pillars

- **Service Excellence** — Luxury bathing rituals, medical-grade pedicures, signature spa treatments — each delivered with precision and care.
- **Environment as Experience** — Clean lines, natural textures, soft lighting, curated music. The space itself is a treatment.
- **Effortless Client Journey** — A booking system, CRM, and follow-up process that ensures the client never has to chase or wonder.
- **Brand Consistency** — From the first Instagram post to the final thank-you message, every touchpoint feels the same: calm, premium, considered.

5. Services Overview

Current Offerings

- **Luxury Bathing Rituals** — Signature full-body bathing experiences using premium products and ritual-based techniques. These are the flagship — they differentiate Tilz from every other spa.
- **Medical-Grade Pedicures** — Clinical-grade treatments in a spa environment. Clean, precise, premium.
- **Signature Spa Treatments** — Curated combinations of treatments designed for relaxation and rejuvenation.

Roadmap Services

- **Facials** — Advanced skincare treatments for Abuja’s climate and client needs.

- **Massages** — Full-body massage menu ranging from relaxation to therapeutic.
- **Couples Packages** — Shared experiences for partners, friends, or mother-daughter occasions.
- **Bridal Services** — Pre-wedding packages for brides and bridal parties.
- **Product Line (Future)** — Curated retail offerings — candles, skincare, bath products — extending the brand into the client's home.

Pricing Philosophy

Tilz Spa will price at the premium tier of the Wuse 2 market. The pricing communicates quality before the client even arrives. Discounting is reserved for strategic moments only — founding circle offers, corporate packages, and loyalty rewards. Never for attraction.

6. Brand Personality

If Tilz Spa were a person, she would be:

- Composed — never rushed, never loud
- Warm — genuinely caring, not performatively friendly
- Confident — knows her value, never justifies her price
- Elegant — minimal in presentation, rich in substance
- Trustworthy — does what she says, every single time

Brand Archetype: The Caregiver

The Caregiver archetype creates loyalty through protection, nurturing, and reliability. Tilz Spa is the space that takes care of the women who take care of everyone else. This archetype resonates deeply with the target audience — high-achieving women who rarely give themselves permission to stop.

7. Strategic Recommendations

- **Founding Circle Launch** — Build a Founding Circle of 20–30 ideal clients before public launch. Offer them a first-access experience and collect testimonials that become the foundation of social proof.
- **Service Ritualisation** — Every service should feel like a journey, not a transaction. From the greeting to the post-treatment tea, design every moment.

- **Content Investment** — Invest in professional photography early. The brand's digital presence depends on visuals that match the in-person experience.
- **Strategic Partnerships** — Build relationships with 5–10 Abuja-based micro-influencers in wellness, lifestyle, and fashion. Gift-based collaborations, not paid ads.
- **Membership & Retention** — A loyalty programme structured around visit frequency, referrals, and annual memberships. Retain clients before you acquire new ones.
